## PRIVATE ACADEMIES

Private academies are to be utilized as supplementary training for players. Extra training is recommended to become a more proficient, well rounded player. SCSA runs academy programming for their players, but in the event a player wishes to attend alternate programming the details and policies surrounding private academies are as follows:

If Players wish to attend a private academy they are:

- Required to fulfill all Club commitments (team practices and games). Missing practices, games and team activities could result in playing time reduction.
- Responsible to attend tournaments with their teams, in the event they choose to participate in an unsanctioned activity over the SCForce team event they are still obligated to the team fees associated with their team attending the tournament.
- Required to attend the Club's academy if they wish to advance to MSA Programming (Manitoba Whitecaps Pre-Prospects, REX, Whitecaps Prospects programs) Recommendations will come from SCSA Academy Programming.

If players are participating in unsanctioned activity they are not covered under Manitoba Soccer Association Insurance in the event of an accident.
